Looking for a remote position as a QA engineer. I am a QA manual with a background in market research. I have nearly two years of experience in crowd testing and also have been working on freelance QA project (SaaS).

WORK EXPERIENCE IN <u>SOFTWARE TESTING</u>

Freelancer in a SaaS startup (USA, remotely)
February, 2023 - present

- Test cases creation (Jira - Xray)
- Performing manual testing (smoke, regress, sanity) (with Chrome DevTools (Network, Console, Elements mainly));
- Maintaining up-to-date documentation;
- Following and report errors;
- Ticketing system with Jira;
- API testing (CRUD requests, collections run);
- Agile Methodology like Kanban

Testbirds Crowdtester
January, 2021 - present

- Manual testing;
- Use cases testing
- Bug reporting

Carried out about 30 structure bug tests, payment flow tests, exploratory tests, mobile app testing.

OTHER WORK EXPERIENCE

GfK-Russia, GfK.com (international market research company)
Senior Researcher/Research Project Manager (Healthcare market research) - October 2007 – February 2013
    Tasks:
- Research design, timing, cost calculation
- Designing research instruments (sample, questionnaire, specifications for the field department, encoding department, data processing department)
- Project management
- Analysis reports and presentations to the clients
    Carried out different full-cycle market researches for Novartis, GSK, Shering Plau, Elly Lilly, Pfizer etc

---
