Mariia Danilova

QA Engineer (manual) remotely

Barcelona, Spain   danilova.maria.k@gmail.com   +34615666088

Profile

I am a Manual QA with a background in market research, two years of crowd testing experience, and current freelancing on a SaaS startup project. I use my eye, hands and tools like Chrome DevTools and Postman to ensure product quality and functionality.

In light of my soft skills, I mention empathy, resilience, attention to details, and assessing the product from the end-user's perspective.

Employment History

QA specialist (part-time work) at Winware.ai
